

Connexions Launches New Black Knight™ Exchange Integration

Jacksonville, Florida, **April 13, 2020** – Connexions has launched a Black Knight™ Exchange (formerly RealEC) integration, teaming up with the largest, interconnected network of mortgage and real estate service providers in the U.S.A. Most notably for both current and prospective clients of Connexions, this new integration provides access to Black Knight's leading Loan Origination System (LOS), Empower.

The Empower LOS will enable clients to receive documents and data with faster turnaround time and a streamlined process. Lenders using the system will now be able to directly submit orders into Connexions' appraisal management platform. For appraisal management companies, this integration will mean seamlessly receiving orders from lenders using Empower.

Black Knight's Exchange system holds a leading position in the market by eliminating costly connections to individual providers, offering online accessibility, and decreasing turnaround time with centralized order management.

"We are constantly working to Implement ways to further satisfy client needs and automate or simplify the processes within the mortgage lifecycle," said Tom McCormick, President & CEO, Connexions. "By integrating with the Black Knight Exchange platform, Connexions expands our onboarding capabilities and provides clients with more efficient loan origination practices."

About Connexions

Connexions is a leading provider of innovative technology solutions for lenders, mortgage brokers, appraisers, and appraisal management companies to achieve a faster and more efficient real estate valuation experience. Connexions is backed by The Nationwide Group (TNG) — a pioneer of outsourced financial services software and the leading appraisal management company.
